WHO WE ARE

About us

We are a Dubai company that designs, builds, secures and supports the technology organisations rely on every day.

Link Bridge Technologies Co. is a civil company licensed in Dubai by the Department of Economy and Tourism. Our work covers websites and software, social media and digital marketing, networks and infrastructure, cyber risk assessment, and software training and data services.

Our approach: we listen first, define the problem clearly, recommend a practical solution, deliver it in stages, and stay available once it is live.

Our mission

To give businesses reliable, well-built technology and digital services that help them operate efficiently and grow with confidence.

Our vision

To be the trusted technology partner that connects organisations in the UAE and beyond with the digital solutions they need.

OUR PROCESS

How we work

A simple path from first conversation to a solution that keeps working.

1

Listen

We learn about your business, your goals and your constraints.

2

Plan

We recommend a practical solution with a clear scope and timeline.

3

Build

We deliver in stages so you can review progress as we go.

4

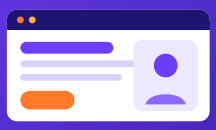

Support

We stay available after launch for maintenance and technical support.

WHAT WE DO

Our services

Six service areas, one accountable team.

Web Development & Design

Websites that present your business clearly and work on every device.

- Corporate website development
- Business website design
- E-commerce website solutions
- Website maintenance and redesign

Software & IT Solutions

Software and systems matched to the way your team works.

- Custom software design
- Computer systems solutions
- Software implementation
- IT consulting and technical support

Digital Marketing & Social Media

Consistent, well-managed visibility for your brand online.

- Social media management
- Social media marketing
- Digital marketing campaigns
- Brand promotion and online presence

IT Infrastructure & Networking

The foundations your people and systems run on.

- IT infrastructure setup
- Network installation and configuration
- Network support and maintenance
- Computer systems hosting services

Cybersecurity & Risk Assessment

Find and understand your security risks before they become incidents.

- Cyber risk assessment
- IT security reviews
- Cyber risk testing
- Security risk evaluation

Software Training & Data Management

Skills for your team and well-organised data for your business.

- Computer software training
- Technical education
- Data entry services
- Database and data processing services

WHY LINK BRIDGE

Why choose us

Professional expertise
Web, software, network, security and training skills in one team.

Reliability
Clear scopes, honest timelines and dependable delivery.

Tailored solutions
We fit the solution to your business, not the other way round.

Customer support
Direct contact with the people who built your solution, before and after launch.

OUR CLIENTS

Who we serve

Organisations of different sizes, in the UAE and internationally.

Corporate businesses
Websites, systems, infrastructure and security.

SMEs
Practical, scalable technology and marketing support.

Startups
A strong online presence and the right tools from day one.

Education & training
Training software, technical education and data support.

Other organisations
If you rely on technology, we can help.
